4. Once you are informed of the acceptance of your application, we request that you pay the required amount prior to the start of the experiment.
 - ¥50,000 Japanese yen per sample. (If you would require a test for a

control water, that will be considered as one separate sample as well.)

- ¥5,000 Japanese yen as a handling charge.
- Remittance charge: You are responsible for the remittance fee charged by your bank when wiring the money.

For example,

¥55,000 + remittance charge in case of 1 sample

¥105,000 + remittance charge in case of 2 samples.

¥155,000 + remittance charge in case of 3 samples.

5. Please send us the water samples with the application form and agreement by mail.

How to send the water samples:

Put 1,000 ml ~ 2,000 ml of water in a bottle (use bottles of regular mineral water as containers), and wrap the bottles with aluminum foil two to three times in order to protect the water from being contaminated by other information from outside. Please send water that has been collected recently.
