Greetings from Masaru Emoto, Chairman of The Citizens’ Group to Foster World Peace

A collection of water crystal photographs “Message from Water” and its explanatory book entitled “Water Knows the Answers” (its English title is “The Hidden Messages in Water”) were published in June 1999 and in November 2001, respectively. They have been translated into various languages and received a tremendous resonance among people all over the world during the past 10 years. Thanks to this world-wide movement, I have been walking on the planet as a missionary of water and giving lectures more than 1,000 times following the request of the people.

During this period, I was able to meet many philosophers, water scientists and researchers, religious persons, artists and spiritual leaders. My faculties as a missionary of water have been developed year by year, and I have been received all the more trust and expectation from the people in the world. At the beginning I was perplexed because I was not sure if such a person without any scientific background as myself could be at a position to lead the people in the world. However, the experiences I have had during the past 10 years were really encouraging ones. It seems to me that God has given me such priceless experiences and plenty of wisdom.

As a result, I have determined without hesitation that from this year on I will make an appeal to the public in the world that will contribute to achieving the world peace.

My first appeal is this “Water and Peace” Global Forum.

I chose Lake Biwa, which is the biggest lake in Japan and sometimes called the mother lake of Japanese people, as the place of dispatching the message. I organized a ceremony named “Thank you, Lake Biwa” in the early morning on July 25 (Day out of Time according to the Mayan calendar) of 1999 and send our prayer to the water of the lake. The lake had been notorious for its bad odor. As a result of our ceremony, a miraculous phenomenon happened. There were no phone calls of complaint about the bad odor only that summer from the local people after the ceremony, although there had been more than 300 calls of complaint every summer in the past.

Currently, our world is facing a lot of difficult problems, and our future is unpredictable. However, the above-mentioned experiences, which I only felt that were provided by the will of God, convinced me that the key to solving those problems is in the elucidation and understanding of water.

March 22, the last day of this forum, is the World Water Day declared by the United Nations. I am convinced that, by organizing this Forum at this timing, we can create a path to world peace on this planet by delivering the wisdom, which I have received from God during the past 10 years, to the whole world, with those wonderful scientists, artists, religious persons and spiritual leaders who have shared it with me.

So, please understand the concept of this Forum and join us in this Forum. Let us take the first step together toward world peace through water! If you could not come to Lake Biwa, please send your sincere Love and Gratitude to the water on this planet on March 22 simultaneously with us.

Finally, the following people have helped us in organizing this event:
Eric Pearl (The Reconnection), Gudni Gudnason (The Modern Mystery School), Hikaru Deguchi (Mekiki-No-Kai), Katsuhito Funai (The Funai Group) and Teruo Higa (EM Group).
We are grateful to each one of you.

Masaru Emoto (Office Masaru Emoto) with Love & Gratitude

— Message from Gudni Gudnason, Co-organizer of the Forum —

The world today is changing fast towards a world of spirit and modern science has now caught up with the spiritual paradigm. The old paradigm was a good one and has brought humanity to this point in time but now it is time for the new paradigm to emerge. The new world will be a better world where we the people chose peace and love, compassion will rule the world and not greed and control. Governments will support the people and compassion will emerge!

The Lake Biwa event is a major event in the evolution towards a new paradigm where scientists of both mind and material come together to celebrate the coming of a new time. Through water and spirit we will start a wave of energy that will go around the world and start calling out to the masses: PEACE! Those who come to Lake Biwa will be the pioneers of this wave and you will feel proud of being one of the first to lead the new paradigm to reality.

Gudni Gudnason (Modern Mystery School)
Outline of Forum

"Water & Peace" Global Forum 2010 at Lake Biwa is a compilation of the world-wide human network which Masaru Emoto has been creating in the past 10 years. There are various sub-themes in this Forum as is shown below. We think that they will be merged into one main theme: Integration through Water toward World Peace.

- Spiritual Ceremony
  Gudni Gudnason, President of the Modern Mystery School and our co-organizer of this Forum, will be in charge of its spiritual aspect through the 3 days. The Golden Pyramid of Peace will be built on the stage, which is kindly offered by him. He has held several ceremonies using this Pyramid in various places in the world. You will feel a special energy by being under the Pyramid. It will amplify the love & gratitude energy from the people and emit it to the whole world.

- World First Music Event Combined with Water Crystal Movies
  All the musicians – Noboru Tenjo, Aika, Ryusuke & Hanayo Seto, Mayana, Ingeborg and Hibiki Ayan – will play at least one piece of their music with a water crystal movie of water that was listening to the music. A dancer Lisa Itakura will perform her original dance in tune with a water crystal movie as if she became a water spirit. Enjoy the changing appearance of water in harmony with the vibration of music.

- Scientific Lectures on Water
  Shoji Kubota gives us a comprehensive talk on the most fundamental theme “What is water?” Masaharu Takao thinks that neutrino is involved in novel phenomena such as found in Ohmara’s new technology (cf. next item) and proposes a unique theory called “Theory of Quantum Water”.

- New Technology to Get Energy from Water
  Ryushin Ohmasa has developed a quite unique technology where water is vibrated and electrolyzed simultaneously. The Oxy-Hydrogen gas produced in this technology can be a new material, and it is highly possible that this gas becomes a new fuel to save the planet in future.

- Experiments to Measure the Energy of Water
  Konstantin Korotkov, Prof. of St. Petersburg State University, developed GDV Electrography, based on the Kirlian photography. Using this technology, the energy contained in water can be measured scientifically. In addition to the lectures, he will perform some experiments on the stage. The themes of experiments on the 1st day and 2nd day are “Does Water Listen to Music?” and “Does Consciousness Change Water?”, respectively. They will be the first demonstration of this kind in Japan, and you will witness “Truth of Water”.

- Funai Group and EM (Effective Microorganisms) Group
  These are two groups with which Masaru Emoto has had a deep connection for many years. Katshito Funai, the second son of Yukio Funai, a very influential person in both business and spirituality in Japan, and Teruo Higa, founder of EM Technology, will give us a lecture. Please learn the latest information from the representative person in each group.

- Introduction of Message from Master Chin Kung
  Master Chin Kung is a Buddhist monk from the Mahayana tradition and the founder of Pure Land Learning Centers all over the world. He has been kindly delivering Masaru Emoto’s work to his followers so powerfully. We are honored to receive his official message to Masaru Emoto at this Forum.

- Lin Hsien-Tsung from Taiwan
  Lin Hsien-Tsung, who has brought awareness to many people in the Southeast Asia, has a deep relation with Masaru Emoto. Lin will talk about his unique “Deep Consciousness Communication Technique”. This is his first lecture in Japan.

- Lineage of Onisaburo Deguchi
  Two great grandchildren of Onisaburo Deguchi, a spiritual giant in Japan before and during the WWII, will give us a lecture. Hikari Deguchi and Hiroshi Deguchi will talk about their own philosophy and its relationship to the ideology of Onisaburo on the 2nd day (day of sun) and 3rd day (day of water), respectively. In his “Reikai Monogatari” (Story of the Miraculous World), Onisaburo mentioned Lake Biwa. Also, many people of Oomoto, the religious sect founded by Nao and Onisaburo Deguchi, have been supporting Masaru Emoto in spreading “Message from Water”.

- Intention Experiment
  Lynne McTaggart, author of “The Field” and “The Intention Experiment”, is a well-known journalist and author, whose work has been uniting science and spirituality. She has mentioned “Message from Water” in her book. So far, she organized several “Intention Experiments” by recruiting many volunteers on the Internet and with the help of several scientists. She is planning to have a first live “Intention Experiment” during her lecture in this Forum. Please don’t miss this golden opportunity.

- Video Images of Earth from the Space
  Project by Kenji Williams is called “Bella Gaia” (beautiful Earth), where he will play the violin showing the movie of our planet Earth taken by NASA astronauts from the space and many beautiful images of human civilizations. You don’t need to become an astronaut to have an experience to see Earth from the space.

- Reconnective Healing
  A prominent healer Eric Pearl, known world-wide, will elucidate the essence of his miraculous healing – Reconnective Healing. He will also give you a live demonstration of his healing technique. Please experience for yourself the new healing frequency brought to this planet by him.

- Prayer for Water in Presence of Chief Priest of Chikubushima Shrine and Genshin Fujinami Aji
  We will pray for water at the end of the 3 days with Itsuo Ikushima, Chief Priest of Chikubushima Shrine, and Genshin Fujinami Aji, who has completed his “1,000-day running ritual” around mountains in Hiei. Let us come together in one mind and heart, and send our sincere Love and Gratitude to water.

- Presence of Princess Märtha Louise of Norway
  With the support of Eric Pearl, Princess Märtha Louise of Norway has decided to come to this Forum. She is well versed in the invisible world, and in 2007 she opened a new private school called Astarte Education in Oslo with her business partner Elisabeth Samnøy, where students learn about spirituality. We are really honored that Princess and Elisabeth will give us a lecture.

It would be no exaggeration to say that this is the world’s first, epoch-making event with the theme of “Water and Peace”. We expect that the consciousness of humanity to water will be significantly elevated after this Forum. Please be a witness of this historical moment!

Executive Committee for “Water & Peace” Global Forum

International HADO Instructor School

There will be International HADO Instructor School held on March 23 and 24 just after the Forum in the Crystal Room of the Hotel Piazza Biwako located next to the Biwako Hall (see the lower part of P04 for the schedule). You will get the following privileges by graduating from this School.
- Certificate as an International HADO Instructor
- Special badge qualifying you as an International HADO Instructor
- CD-ROM containing the presentation files of Masaru Emoto and water crystal photographs: You can use them for your presentation in your own seminar and workshop.

In addition to Masaru Emoto, Annie Ezekiel will be the lecturer of the School this time. She has been supporting Masaru Emoto’s work. She is a spiritual teacher who has been helping many famous people in the political and business circles in Thailand, Singapore and so on. This is the first time for her to give a public lecture. Please be certified as an International HADO Instructor and join us in spreading “Truth of Water” to the people all over the world!

Masaru Emoto

Missionary of Water, President of Office Masaru Emoto

PROFILE

Born in 1943 in Yokohama. Graduated from the Yokohama City University. Currently, President of OFFICE MASARU EMOTO, Chairman of I.H.M. Co., Ltd, Chairman of the International HADO Membership, and Honorary President of the International Water for Life Foundation.

After the graduation from the University, he established I.H.M. Co., Ltd. in 1986. While visiting the US, he encountered a device called Magnetic Resonance Analyzer (MRA) and micro-clustered water, and decided to challenge the mystery of water as his life work. A pioneer in HADO technologies, he is the one who has been spreading the concept of HADO throughout the world.

In 1999, he self-published “Message from Water”, a first photograph collection of water crystals, and demonstrated that water can memorize and transmit a variety of information such as music, photographs, words, prayer and human consciousness. This message of peace from water created a resonance in people’s hearts and has been propagated to the whole world. Today, it has been translated into more than 45 different languages and the total sales of his books are more than three million copies. As a result, he has been invited by more than 75 countries in the past 10 years and given his lectures many times. In 2005, he gave a keynote speech at the UN Headquarters in New York and declared to start the Emoto Peace Project in which 650 million copies of a children’s version of “Message from Water” will be delivered to all the children on this planet for free.

Gudni Gudnason

President of Modern Mystery School

PROFILE

Gudni Gudnason was born in Iceland 1958. As a young man he was bored with this life and spent his time in study of all things human: spirituality, religion, philosophy, history, psychology and more in order to understand humans better so that he could serve them. He mastered many things and later in life got a degree in both business and psychology as well as earning awards for painting, sculpture, poetry, martial arts where he holds several black belt degrees and he received the Business Man of the Year award in the US where he attended a White House Dinner with the President of the US.

Mr Gudnason studied rigorously the science of the mind in order to understand the core issues regarding pain and the process of healing. He travelled around the world and studied with great masters, and in time learned to harness the mind and help others to do the same. He excelled in an ancient system called the Mystery School and he has worked hard on spreading those teachings around the world. His school, the Modern Mystery School is now in 39 countries around the world with hundreds of thousands of students learning the ancients teachings of healing and empowerment.

He has also started a project called the Golden Pyramid of Peace where he promotes peace to the world. During this Forum, Gudni and his team will lead several rituals and meditations using the Pyramid.

Noboru Tenjo

Musician, Bamboo Flute & Synthesizer

PROFILE

Born in Fukuoka Prefecture. Performed Piano and Vocal in different bands of rock and pops in the past. Then, he travelled in the US to practice his music. After coming back to Japan, he organized a band called “Bo Tree”, and continues to perform in the concerts and appear in the NHK TV, radio and BS programs. He made many CDs and wrote a number of books. Currently, he is performing at the concerts, giving lectures and dedicating his music to the gods of many shrines.

### Shoji Kubota
**Director of Society for the Study of Water Design**

**PROFILE**

Born in 1936 in Niigata Prefecture. Doctor of Science. Graduated from the Faculty of Science at the Tohoku University in 1960, and completed his master’s course of the Graduate School of Science at the Tohoku University in 1962. After working as a research assistant at the Tohoku University and a lecturer at the Faculty of Technology at the Shizuoka University, he joined Hitachi, Ltd. in 1970 as a chief researcher and retired in 1995.

He had been involved for 5 years since 1983 in a national water-related project at the Water Reuse Promotion Center, which is an extra-departmental organization of the Ministry of Economy, Trade and Industry. In 1994, he became a member of the Water Resource Reevaluation Committee of the Ministry of Agriculture, Forestry and Fisheries. He was a part-time instructor at the Faculty of Technology at the Ibaraki University from 1983 to 2003.

Currently, he is Director of the Society for the Study of Water Design, President of the Water Design Institute, Adviser of the Subtle Energy Association of Japan, Director of The PSI Science Institute of Japan, and Chairman of the board of directors of the Specified Nonprofit Corporation Association of Functional Ions in Japan.

He is the author and editor of more than 20 books on water science including several encyclopedias on water.

### Konstantin Korotkov
**Physicist, Russia**

**PROFILE**

Konstantin Korotkov is the inventor of the EPI (ElectroPhotonic Imaging)/GDV (Gas Discharge Visualization) technology. He has published over 200 papers in physics and biology, and holds 15 patents on biophysics inventions. Professor of Physics at the St. Petersburg State Technical University in Russia, and President of the International Union of Medical and Applied Biophotography. Since its first appearance in 1995, the EPI/GDV technology has always drawn people’s interest. This application of EPI/GDV technology is a radical innovation beyond the original focus on the energy of psychological and physiological states.

During the Congress in Brazil 2009, President of the Academia Sul-Americana de Medicina Integrada, Dr. Roberto Cezar Leite honored Konstantin with a special award of the Academia for outstanding achievement in the developing of new instrumentation and many years of scientific research in the field of Integrative Medicine. In Russia, Dr. Korotkov is awarded with a medal under the name of Chgevsky – the honorable award of Russian Academy of Medico-Technical Science.

Dr. Korotkov will give us a live demonstration of energy measurement of water on the stage during his lectures at this Forum.

### Lisa Itakura
**Actress, Dancer**

**PROFILE**

Graduated from the Faculty of Literature at the Musashino Women’s University. Starting modern ballet at the age of two and half, she has been performing as a main member in the Toho musicals featuring a famous actress Mao Daichi.

In 1990, she was awarded “Miss Prêt-a-Porter” at the Miss Japan Grand Prix contest. As a goodwill ambassador of beauty, she paid a courtesy visit to the prime minister’s official residence and embassies of many countries in Japan, and visited Australia as the representative of Miss Asia.

In January 2008, she was invited to India by the consulate general of Japan in Mumbai and the executive committee of the Mumbai Festival and made an opening speech and performed a dance at the Mumbai Festival 2008 as a representative of Japan. This scene has been chosen as a highlight of an Indian movie “Dance! Dance! Dance!”, which is now being directed by Akram Shahk. Lisa is a leading actress of this movie.

## Ryushin Ohmasa
**President of Japan Techno Co., Ltd.**

### PROFILE
Born on March 4, 1939. Received a doctoral degree in technology from the Graduate School of Nagoya Institute of Technology.

Currently, he is President of Japan Techno Co., Ltd.

He developed a new mixing device, which has a vibrating motor with some fin oscillators on a pair of shafts. The vibration of the fins causes a turbulent discharge flow from the fin tips like a jet flow, which establishes high mixing performance in the equipment.

By electrolyzing water which was vibrated by the use of this new mixing equipment, Ohmasa produced microbubbles of oxygen and hydrogen. He found very unique properties in this mixture of oxygen and hydrogen produced by this system. One of them is that this special mixture of oxygen and hydrogen is very safe and can be used as a new fuel, although it is usually dangerous to mix oxygen and hydrogen.

He was awarded twice by the Agency for Science, Technology and Research, and received a Medal with Yellow Ribbon from the Prime Minister’s Office.

Hibiki Ayano

Singer

PROFILE
Born in Tokyo. Familiar with songs since her childhood, she started to take voice lessons at the age of 10. She has been engaged in a wide variety of music activities such as pops, nursery songs, lullabies, musicals, chansons, arias. Her singing method with beautiful Japanese words and her voice with clearness and warmth enjoy a good reputation. She has a lot of fans in Japan beyond ages and genres.

She made a debut with her original song “Goddess of Word-Spirit” in November 2003. In July 2005, she covered “A Thousand Winds”, which was composed by Man Arai and soon became a topic. At the same time, she created a love song “Wind of Eternity” connecting this world with another world, which gently asks us how we should live after we lost our dearest person. It is regarded as an answering song to “A Thousand Winds”.

She has been actively involved in writing lyrics, direction, composition, scenario writing and production of stage performance. She has been also dedicating herself to grass-root concert activities at medical facilities all over Japan.

Itsuo Ikushima
Chief Priest of Chikubushima Shrine

Since October 1988, he has been the 5th-generation Chief Priest of Chikubushima Shrine, which is located on the Chikubushima Island in the northern part of Lake Biwa. Enshrined Deities of the Shrine are Ichikishimahime-no-mikoto (Saraswati), Ugafukujin, Asaihime-no-mikoto and Ryujin (dragon god). Ichikishimahime-no-mikoto (a.k.a. Saraswati and Munakata Okami), the first water deity appearing in the myth of Japan, is a child of Amaterasu Omikami. According to the Kojiki (the oldest extant chronicle in Japan), she is a goddess who opened roads on the land and sea, and she is in charge of traffic safety and good-luck. Saraswati gives you compassion, prosperity and peace of mind. Ugafukujin is a deity of bumper crop and thriving business.

Genshin Fujinami
Ajari, Tendai Buddhism, Mt. Hiei

Born in Mie Prefecture in 1959. Great Ajari of Hokurei sect. At the age of 17, he became a monk at the Mt. Hiei Enryakuji Temple. Next year, after entering the Eizan Gakuin College, he moved to the Imuro valley where his mentor Yusai Sakai Ajari is living, and started to accompany Yusai Sakai Ajari’s Sennichi-Kaiho-Gyo (one-thousand-day circumambulations-of-the-mountain practice). Graduated from the College, he accompanied the Bishamondo Monzeki in Kyoto. In 1984, he completed the first 100 days of his own Sennichi-Kaiho-Gyo. Then, he once gave up being a monk, left Mt. Hiei and worked for a company as a businessman. In 1993, giving rise to the desire to save all sentient beings, he started his 12-year practice of shutting himself inside the premise of the Mt. Hiei Enryakuji Temple based on the Sange-Gakusho-Shiki, which was also the resumption of his Sennichi-Kaiho-Gyo. On September 18, 2003, he accomplished his Sennichi-Kaiho-Gyo., and on October 19, he performed a prayer ceremony in the Kyoto Imperial Palace. In 2005, he completed the 12-year practice successfully.

Currently, living at the Matsuzen-in in the Imuro valley at the foot of Mt. Hiei, he is giving a Buddhist rite of cedar-stick burning and performing incantations and prayers at 1 pm every day. With a famous medical doctor Ryoichi Obitsu, he wrote a book entitled “Power of Life”, which was published by Keizaikai in 2007.

There are not many hotels around the venue. In addition, the period of the Forum falls on three consecutive holidays in Japan. We expect that the hotels are very crowded. As it takes only 9 min from Kyoto Station to Ohtsu Station and 15 min from Kusatsu Station to Ohtsu Station, you can come to the venue every day from hotels in Kyoto or Kusatsu.
※ If you could not find an appropriate hotel for you to stay, please contact us. We have reserved a certain number of rooms at several hotels, although the number is limited.
